

Attorney at Law in Copyright and Media Law, Zurich

Do you want to develop your skills in a collegial atmosphere and specialise in the challenging and exciting field of copyright and media law?

We are looking for a lawyer with a focus on copyright and media law for a 100% pensum (at least in the initial phase).

We would like to involve you immediately in the relevant mandates and provide you with direct client contacts, which requires your ability to carefully analyse copyright and media law issues and your willingness to make independent legal decisions. You will actively participate in the professional and client-related exchange among the team members and the other lawyers in our firm.

We expect you to have a very good law degree, a very good command of German and English (other foreign languages would be an asset, too), confident and professional manners, the ability to work well in a team and the willingness to work out constructive solutions for our clients at a high level. We assume that you have already come into contact with issues of copyright and media law (doctoral thesis, work in a media house, etc.) and are following legal, technical and business developments.

We are committed to equality in the workplace and consider diversity a strength. All applications that fit the profile are very welcome and will be considered.

If you are interested and would like to join our team, we look forward to receiving your application. If you have any questions, please do not hesitate to contact us.

Our IP team is leading in its fields and internationally recognised. We handle complex and challenging mandates for national and international clients in the field of copyright and media law. As a member of our team, you will work in our offices in the heart of Zurich West. We offer you a modern workplace and attractive, performance-based remuneration as well as flexible working conditions (e.g., partial home office, part-time work after initial phase). Direct job applications are preferred.
